

SEE STARS

AND  
SEA STARS

The **Ocean Isle Museum Foundation, Inc.** is a 501(C)3 non-profit organization that governs the operations of two facilities in Brunswick County; The Museum of Coastal Carolina on Ocean Isle Beach and the Ingram Planetarium at Sunset Beach. The Museum's and Planetarium's operating expenses are funded mainly through admission fees, gift shop sales, private donations, community contributions and memberships. Only a small percentage of the budget is provided by public funds.

The **Museum of Coastal Carolina** is the only natural history museum located on a North Carolina barrier island. The Museum's Mission is to stimulate the public's interest and understanding of the natural science, environment, and cultural history of the coastal region of the Carolinas with seven galleries having dioramas, exhibits, hands-on activities and a tidal touch tank with live sea animals.

The **Ingram Planetarium** is an 85 seat domed theater with high-definition digital projection and laser projection. The Paul Dennis Science hall exhibits and displays feature math and science activities to engage children and adults. The Mission is to provide a broader understanding of our Earth, solar system, and the universe.

For educational and entertaining gifts and toys, visit the Nature's Treasure Gift Shop at the Museum or the Galaxy Gift Shop in the Planetarium.
